Complete denture construction manual by Finlay Sutton (Prosthodontist) with Rowan Garstang (Dental Technician)

This complete denture construction protocol is based on the guides published by the British Society of Prosthodontics in 1996. These are as relevant today as when they were first published. The guides can be obtained at 10th (Taxon hard one Man (The Content one 2) is relevant to refer to these fluides to Standards or Proofestic Dentiting as well as these instructions. We attempt to give the patient "prosthadards: privacy". A phrase created by Dr. John Besford, whereby only the patient and thrubing enablestonic tager know that the gatient has prosthetic teeth.

Removable prosthusionize is not easy and takes effort and graft to get good at 8. Use anything in life

The most important factor in delivering suscessful dentures

Technical factors are extremely important but are not the most important factor in delivering successful.

The patient's aducation and understanding of their sole is the single most important factor in the success.
