½ day of travelling £3,626 + VAT

1 day of travelling £6,042 + VAT

2 days of travelling £9,667 + VAT

Flights inside Europe – Standard class

Flights outside of Europe – Business Class

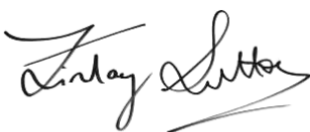

My speaking/honoraria fees are high, reflecting the quality of the clinical work I present and the dedication I have put into removable prosthodontics throughout my career. There is a **mass of free** resources available on my [website \(Resources and Case Studies\)](#) and on my [Facebook](#) page. My lecturing and speaking engagements help fund this free-to-access material.

I am completely honest and transparent, holding nothing back technically or emotionally, ensuring that delegates benefit maximally from the experience — something they consistently appreciate.

My presentations showcase meticulous documentation of each patient I treat, beautifully illustrated with photos and videos. The practical advice I offer is designed for immediate application in delegates' practices, so they can implement it straight away on Monday morning. In addition, I deliver content in a stimulating and engaging way, keeping the attention of attendees throughout.

If you are interested in inviting me to speak or present, I am open to reasonable negotiation. However, I highly recommend paying the requested fees, as this reflects the investment I have made in developing my content and the quality of the learning experience provided.

Many thanks indeed

Dr Finlay Sutton
