My speaking/honoraria fees are high, reflecting the quality of the clinical work I present and the dedication I have put into removable prosthodontics throughout my career. There is a huge amount of free to access resources available on my website ([Resources](#) and [Case Studies](#)) and on my [FaceBook](#) page. My lecturing and speaking engagements pay for this free to access material. I am completely honest and transparent, holding nothing back technically and emotionally so that delegates benefit maximally - which I find they truly love. My presentations show meticulous documentation of each patient I treat, beautifully illustrated with photos and videos. My lectures are designed so that delegates can put into practice the practical advice straight away on Monday morning. In addition, I deliver content in a stimulating and entertaining way, keeping the attention of attendees.

Many thanks indeed
